Figure 2. A chimpanzee day bed. Fimbi, a juvenile female chimpanzee in Mahale, lying in the bed on December 21, 2010.

Figure 3. The Human Evolution Bed (the 4th prototype).

bed at home. He shared his idea about creating a chimpanzee bed on a human scale with the designer Shinichi Ishikawa, and Arichika Iwata, a bedding product expert/sleep environment instructor (IWATA Inc.), who showed interest in supporting the project.

After much discussion and the production of two prototypes, the Human Evolution Bed was made. When

Zamma lay in it, he felt the same comfort as when in the chimpanzee bed, or even more. This final prototype was exhibited at the “Exhibition on Sleep: Evolution and Diversity of Material Cultures for Sleep” at the Kyoto University Museum in 2016. Now we, the project team, are trying to make a final prototype that is durable and suitable for the market.

<From the Editor>

From the next issue on, all contributors will be requested to add a DOI (Digital Object Identifier) number to every reference whenever it is available (for a new referencing style, see References of the articles in this issue). If you do not know how to get DOIs, go to the following URL:

<http://www.crossref.org/guestquery/>

Then you can look up DOIs only by filling in “First Author” (surname) and “Article Title”, and clicking the “Search” button.

PAN is planning to participate in CrossRef, which is the citation-linking system for online publications, thanks to the assistance of the Kyoto University Library Network. CrossRef members have an obligation to link references in the journal articles they deposit via CrossRef. Participation in CrossRef will benefit contributors in two ways. First, it will give DOIs not only to future articles but also to all the back number articles. Second, it will enhance online visibility of PAN articles. We hope more and more scholars can find and access PAN articles while reading other online journal articles or PDFs published by other CrossRef member publishers.
